

COURTYARD BY MARRIOTT

San Antonio, Texas

When the Courtyard by Marriott built their Riverwalk location in downtown San Antonio, FSG provided turn key electrical construction services.

Owner
Marriott

Contract Type
Electrical Construction

Contract Amount
\$ 2,761,000.00

General Contractor
Lyda Swinerton Builders

Electrical Contractor
FSG

CHALLENGE

Construction of this Multi-Story Downtown Hotel was complex and demanding due to the limited access of this busy location.

SOLUTION

Constructed between 2 existing high rise buildings, and very little space for on site material handling, this hotel project required cooperation between every trade. The use of JIT Deliveries, as well as an off-site, but nearby "Lay-down" yard, and material handling facility allowed our personnel to keep pace with the project requirements.

RESULT

The project operated more smoothly than many had expected, and the project was completed successfully, and on time.
