

Houston, Texas

NRG STADIUM

PROJECT TYPE

Lighting

ELECTRICAL CONTRACTOR

FSG

CONTRACT AMOUNT

\$497,000.00

When Musco Lighting needed a contractor partner that could help them execute an LED lighting retrofit for one of the NFL's largest venues, they turned to FSG as their partner of choice.

Executive Summary

FSG partnered with Musco Lighting to execute an LED lighting retrofit at NRG Stadium, supporting one of the NFL's premier venues. Serving as the electrical contractor, FSG provided demolition, infrastructure upgrades, fixture installation, and final system power-up. Leveraging extensive experience with large-scale sports facilities and prior work at the stadium, the team adapted to the demands of new lighting technology while maintaining precise execution. The completed project delivered a modern lighting system that enhanced operational flexibility, improved visual performance, and introduced energy-efficient illumination for events hosted at the venue.

Project Highlights

- Executed demolition and installation activities to support a full LED lighting retrofit in a major NFL stadium
- Installed new raceway, mounting points, and electrical infrastructure to support advanced lighting systems
- Delivered a completed lighting system with enhanced performance, flexibility, and energy efficiency
